

"None of us." The result is that the drift is now back to the barracks. "We have more men applying to enlist every day now," declared Capt. O. H. Meyer, "fourteenth cavalry, when asked today as to enlistment conditions, "than applied every month in the two years preceding November, 1907. For the month ending Dec. 31, 86 men applied for admission to the army. A part of these, we sent to Ft. Douglas, and a part we rejected as unfit for service. The normal for the previous year was not over 15 applicants per month."

#### CIVIL SERVICE CROWDED.

An inquiry at the civil service department having to do with railway mail clerks develops the fact that while all year it has been a problem to keep the service together, with so many good jobs obtainable outside, now applications come in so fast that it "isn't worth while to waste paper" in answering applications for examinations. In this case of the army, old soldiers who left the service for civilian life are prominent among applicants to enlist, and some of those who have left the railway mail service are among the returning applicants for reinstatement, now that the balance of advantage is in favor of the men in the service and not outside of it.

#### THISTLE CLUB ELECTS OFFICERS

At a well attended meeting of the Thistle club, held in Columbus hall last evening, the following officers to serve for the ensuing year were installed: Nicholas Hood, president; Robert Stevenson, vice-president; David Henderson, secretary; Simon Greve, treasurer; W. A. Gray, conductor; J. C. Williams, inspector; George Roushon, sergeant-at-arms; William Nibbel, chaplain. During the evening ladies of the society served dainty Scotch refreshments. The committee was appointed to make arrangements for a fitting celebration of the birthday of Robert Burns, Scotland's greatest poet. The birthday occurs on January 25, but as that day is Saturday, it was decided to hold the function on the evening of the 24th.

#### DRY FARM DESIGN.

Fisher Harris Makes One for Badge of Coming Convention.

Manager Fisher Harris of the Commercial club received this morning, a sample badge of the coming Dry Farming Congress to be held in this city. The badge is Mr. Harris' own design. It consists of a circular medallion of specially prepared gilt, representing a farmer plowing and sowing, with the rising sun and mountains in the background. The medallion is pendant from a horizontal bar by a green satin ribbon, the decoration of the bar being a large plow. The general appearance of the badge is unique and striking.

#### WARRANT FOR MORGAN.

This morning Justice of the Peace Dana T. Smith issued a warrant for the arrest of one H. W. Morgan, charging the latter with failure to provide for his minor children. The charge under the laws of Utah, is a felony, and Morgan will be in custody as soon as the officers locate him.

#### PROTESTANTS WIN CASE.

That portion of sections 21 and 22, Salt Lake county are mineral territory, not agricultural, is the decision rendered by Register E. R. Thompson and Receiver M. E. Kaighn. The decision is the outcome of a protest by J. C. Clive and others in a combined protest against the state's selection of the land for school purposes. The protestants filed suit upon the land for placer claims and did assessment work and went through all legal formalities and performances demanded by the government of persons taking up mineral land. They claimed petroleum, lime cement stone and other products and resources represented the value of the land, and asked for complete investigation they are upheld by the local land office.

#### PEERY EXECUTRIX APPOINTED

Three Estate Matters Come Up Before Courts for Their Attention.

The will of the late D. H. Peery was admitted to probate this afternoon by Judge Armstrong. Elizabeth L. Peery, Horace E. Peery, and Harold T. Peery are named as executrix and executors of the estate, to serve without bonds. In the estate of Charles A. Molson, Percy Vaughn Molson was appointed administrator to serve under a bond of \$40,000. The estimated value of the estate is \$150,000.

Luther G. Retallick has filed a petition for letters of administration in the estate of Job Retallick who died in East Rand, Transvaal, South Africa, leaving three heirs in this state. The value of the estate is \$780.

#### SUES TRIBUNE FOR \$10,000.

Former Employee Wants Damages for Injuries Sustained in a Fall. William Morlarity filed suit in the Third district court this afternoon against the Tribune Publishing company of Salt Lake City, in which he seeks to recover judgment for \$10,000 for injuries alleged to have been sustained by him while in their employ, in falling from a beam during the construction of their new building. The accident is alleged to have occurred May 26, 1907.

#### JUMPED HIS HOTEL BILL.

The county attorney's office issued a complaint today against M. B. Bain, charging him with absconding from a hotel with intent to defraud the keeper thereof. It is alleged that Bain rented rooms in the Orpheum hotel and left the city without paying the rent due, amounting to \$20. Bain has been arrested and is held for the Salt Lake officers.

#### "A Good Name at Home"

"Is a tower of strength abroad"—and the excellent reputation of C. I. Hood Co., and their remedies in the city of Lowell, where they are best known, inspire confidence the world over, not only in the medicines but in anything their proprietors say about them. "It Made by Hood It's Good."

"I believe Hood's Sarsaparilla the best all round family medicine known today." Mrs. G. D. FARLEY, 652 Wilder St., Lowell, Mass. "I recommend Hood's Sarsaparilla to any one." JOHN B. DUFFY, 14 Auburn Street, Lowell, Mass.

#### WEATHER TALK.

Dr. R. J. Hyatt is off on a short vacation, but Salt Lake continues to have weather. An area of high barometric pressure prevails over the eastern slope this morning. Areas of low pressure are central over the upper Lake region and British Columbia. Precipitation was general during the past 24 hours over the middle and lower Mississippi valley, Ohio valley, Lake region, Oregon, western Washington and portions of California and Nevada. Rainfalls of 1.20 and 1.10 inches were reported from Oklahoma and Little Rock, respectively. During the past 24 hours temperatures have fallen over the upper Missouri valley and have risen from the Lake region eastward to the coast. Fair weather is indicated for this vicinity tonight and Sunday. V. H. Church, Observer, temporarily in charge.

#### DEATH OF JAMES BISHOP.

James Bishop, an aged resident of Salt Lake, died at his home Jan. 4, of general debility. He was in his 76th year, having been born in Shrewsbury, Shropshire, England, July 24, 1831. He was baptized in the Church of Jesus Christ of Latter-day Saints, and was ordained an Elder in the Church in 1858. He died at his home, 1015 East 1st St., on Sunday, Jan. 4, 1908, at the age of 76 years, 11 months, and 11 days. He was a faithful member of the Church, and a devoted husband and father. His funeral will be held at 2 p. m. on Monday, Jan. 5, at the residence of his wife, Mrs. Bishop, 1015 East 1st St. Burial will be in the Salt Lake City cemetery.

#### LATE LOCALS.

Secy. Tingey Returns—Secretary of State Charles S. Tingey has returned from a week's visit in Los Angeles.

Business About the Same—The express companies are cleaning up the last of the holiday business which is about the same as that of the last holiday season.

M. S. Darrow Recovering—M. S. Darrow, the civil engineer who has operated upon for appendicitis Thursday night, at the Holy Cross hospital, is rapidly recovering, which will be good news to his many friends.

Spontaneous Combustion—The fire department was called out shortly after 2 o'clock this afternoon by an alarm from the Bransford apartments, where a pile of slack coal in the rear caught fire from spontaneous combustion. No particular damage was done.

Roller Skating Party—The High school roller skating club held another successful party at the Auditorium this morning. About 300 were present and enjoyed a couple of hours on the little wheels. Last evening the club composed of the state university students, held forth. These parties are becoming most popular, and a number of them are being arranged for next week.

Mayor Vetoes Report—Mayor Bransford has vetoed the report of the committee on public grounds of the council recommending the purchase by the city of 160 acres of land in Parley's canyon adjoining the Youngsberg reservoir site at a cost of \$1,600. Mayor Bransford declares that the city is in a position to buy the land and that he is not advised as to the necessity for the purchase.

Work on Federal Heights—Work on Federal Heights will continue this winter and he completed this spring. Such is the statement made by A. M. Wrench, this morning. Mr. Wrench has just returned from Colorado and declares that he will put a force of men to work Monday on east First South street, and the southern portion of the property. In spite of the winter weather and the hard times he intends to have the property in shape by spring.

Officers Installed—The following officers were installed last evening, by the P. Edward Connor camp, No. 1, of Utah division of Colorado, Sons of Veterans, under the direction of Col. George B. Squires: Captain, P. E. Connor; first lieutenant, H. E. Deway; second lieutenant, R. S. Slater; camp council, E. M. Quailtrough, M. H. Glen, S. W. Patterson; chaplain, W. R. Graham; first sergeant, H. R. Corser; quartermaster sergeant, Earl W. Kinsman; corporal of the guard, Porter Wilson; color sergeant, Alexander E. Wilson. After the installation speeches were made by Col. T. Tallock, Col. Squires, W. P. Rowe and others. The camp now numbers 37 members, six months after organization. Before the close of the current year a membership of 100 is expected.

## MINE INSPECTOR SUBMITS REPORT

Year Just Closed Has Been Most Prosperous in State's History.

### GAINS ALL ALONG THE LINE.

Many New Mines Have Opened Up And Production of Coal Has Kept Pace With Demands.

#### PERSONAL.

The annual report of State Coal Mine Inspector J. E. Pettit was filed with Gov. Cutler today. Mr. Pettit introduces his report with the statement that the year just ended has been the most successful in the history of coal mining in Utah. Mr. Pettit was appointed to succeed Gomer Thomas as inspector of mines in the summer of 1907. His report covers the entire year up to Nov. 30, 1907. Because of increased demands for coal and the by-products, it has been necessary for the mines to work to their limit of capacity in every direction. The average number of days worked for the year has been 311. There has been, because of the increased demand, an increase of approximately 20 per cent in the cost of coal on the market. This increase has been accompanied by an increase in wages to a time when from 10 to 20 per cent. In this connection the inspector's report cites that the cost of living has kept pace with increases in other lines.

#### DOMESTIC RELIEF.

The closing of copper mines in Montana and elsewhere and the consequent reduction in smelter operations, being accompanied by a corresponding reduction in the demand for coal and coke, resulted in diverting to the commercial markets thousands of tons of coal and of relieving coal shortage at a time when the needs of the cities were most pressing, coming at a time when cold weather was being felt to a greater degree than during the previous period of comparatively warm weather.

During the year there has been only one occasion in which labor troubles threatened to close down a mine. That was in Summit county and an amicable agreement was reached after four days of negotiation. The trouble was settled with satisfaction both to employer and employed.

#### LANDS FILED ON.

During the year filing has been made upon approximately 8,000 acres of coal land, the greater portion being in Emery county.

Among the companies which have been organized during the year are the following: Independent Coal & Coke company, Hales; Sunshine Coal & Coke company, Hales; Rees-Grass Creek Coal company, and Utah Steel Creek mines company, Coalville. The Mud Creek mines have been sold to the Federal Coal company, and the Crystal Coal & Coke company, both of Carbon county, and the Consolidated Fuel company, of Emery county, have filed articles of incorporation with the secretary of state during the year.

#### YEARS PRODUCTION.

A tabulated showing of production of hydro-carbons for the year is shown in the following:

hydrocarbons for the year is shown the following:	
Asphaltum (in tons) .....	21,462
Elaterite .....	125
Ozocerite .....	100
Asphaltum .....	4,000
Coal .....	1,967,651
Coke .....	324,692
In the above there is an increase of 1906 of 128,432 tons and of coke, 42,497 tons. In mine operations for the year there have been used 217,132 pounds of black powder and 108,650 pounds of gun powder. There have been 2,687 men employed in the state's mines, an increase of 712 men for the year over 1906. The average production of coal is 165 tons per man for the year has been 734 tons.	

#### NINETY ACCIDENTS.

In the year there have been 90 accidents to miners, eight have been fatal, 11 serious, and the other non-serious. Four wives have been widowed as the result of the fatalities and 16 children have been left fatherless. There has been 283,394 tons of coal sold in Salt Lake City against 264,533 tons for 1906.

#### PRODUCTION BY COUNTIES.

The production of coal by counties has been:	
Carbon (in tons) .....	1,816,133
Summit .....	73,938
Sanpete .....	1,500
Emery .....	2,562
Morgan .....	421
Other small mines .....	70,117
Total .....	1,967,621

Gain over 1906 production ..... 128,432 || There are nineteen large mines operating within the state and a large number of smaller mines. |  |

#### NATIONALITY OF MINERS.

An interesting table in the report shows the nationalities and numbers of each working in the coal mines of the state. The information is as follows: Americans, 1,592; Greeks, 14; Italians, 49; Austrians, 392; Poles, 14; Germans, 48; French, 20; Belgians, 11; Swedes, 23; Negroes, 8; Japanese, 56; Chinese, 1; making a total of 2,778. The report concludes with the recommendations of the inspector. Mr. Pettit strongly approves of his predecessor's recommendation that the mining laws be amended to prohibit miners from going to the mines at the time blasting is going on, permitting only the men necessary to fire the shots to be underground. Mr. Pettit also refers to the fact that the appropriation for 1908 will not permit him to comply with the requirement of the law respecting his position.

## NO WEATHER TOO SEVERE

For the person just recovering from a cold, if they wear one of our

### CHAMOIS CHEST PROTECTORS

lined with the softest flannel. We have them to fit the smallest child or the largest man.

#### F. J. HILL DRUG CO.

"The Never Substitutors"

Duet, "Lead, Kindly Light" (Lansing)—Mrs. Beatrice Thomas and Melvin Petersen. "The Plains of Peace" (Barnard)—Edna Morris. "Content" (Parks)—Prof. Kent's male chorus. The public is cordially invited.

#### PERSONAL.

Hyrum Bergstrom leaves for Los Angeles today to continue his course in dentistry.

Mr. and Mrs. Charles H. Lindley will leave tomorrow on an extended eastern trip, which will take in Havana and New Orleans.

State Treasurer Christensen is spending the holidays at Litchfield, Utah, intending to return Monday next.

#### TRANSMUTATION OF METALS.

Prof. McCoy of Chicago University Says it is Now Possible.

Chicago, Jan. 4.—That the changing of elemental metals into one another is now possible, the distinguished physicist made yesterday by Prof. Herbert N. McCoy of the University of Chicago, at the final meeting of the American Association for the Advancement of Science.

The ancient dream of the separation of the elements, which antedates the science of chemistry, is being fulfilled by the processes of nature and the effect of radium emanation, it is alleged by the chemist, who read a paper on "The inter-relations of the elements and the discovery of radium," at the original investigation into the nature of the atom and experiments believed to shatter many famous scientific hypotheses.

In support of his statement that the elements may no longer be considered immutable and that matters of but one primitive sort, subject to changes, Prof. McCoy told of the production of different metals from elements of their own laboratory. The presence of radio-active conditions in the atoms is held responsible for the changes.

#### EARL OF YARMOUTH WILL DEFEND DIVORCE SUIT

London, Jan. 4.—The solicitors of the Earl of Yarmouth, whose wife, formerly Mrs. Cecil Chaw, who has begun suit for the nullification of her marriage, have given notice that they propose to defend the action. The case probably will not be heard for several weeks.

While this action is quite distinct from a divorce, it will be heard in the divorce court, the sitting of which begins Jan. 11. The court has only two 156 undefended cases which take precedence over the defended suits. The Yarmouth suit stands 61 on the list of defended cases.

Lewis and Lewis, the famous firm of solicitors of which Sir George Lewis is the best known lawyer in England is the best, will represent the countess. Insanity, however, is not a ground for annulment of the marriage relation or an existing marriage are the only grounds upon which, under the English law, a marriage may be annulled.

#### CONFEDERATE VETERANS.

Opposed to Proposition to Have Government Pension Confederate Veterans.

Nashville, Tenn., Jan. 4.—At its meeting last night the Frank Cheatham Division, United Confederate Veterans, adopted a resolution requesting southern representatives in Congress to do everything in their power to defeat the proposed pensioning of Confederate soldiers by the government.

"We don't need the paterfamilias of the government. We consider the duty of the states formerly composing the Confederate states to take care for worthy, needy Confederate soldiers of their state treasuries, as they are now doing with great liberality."

#### BORN ON A PULLMAN.

Topeka, Kan., Jan. 4.—A little girl was born to Mr. and Mrs. J. H. Harvey today in the Pullman car of the Atchison, Topeka & Santa Fe passenger train as the train was pulling into Topeka today. The parents of the little girl are prosperous residents of Chicago and were en route from San Francisco to that city. They named the child "Santa Fe."

#### POLITICS BY MAIL.

Campaign Opened by F. F. Wheeler's Friends for Prohibition Nomination.

Los Angeles, Cal., Jan. 4.—Friends of Frederick F. Wheeler, a capitalist of this city, have opened a correspondence campaign to secure for Mr. Wheeler the prohibition nomination for president at the national convention of the United Prohibitionists, next July. Mr. Wheeler admits that he is a good candidate for the honor and will be glad to lead the Prohibitionists if called upon to do so. He is a member of the Prohibition national committee and had been candidate for Congress in 1904 and other offices. He was formerly a banker and merchant of Albany, N. Y. Wheeler is quoted as saying that of course his party has no hope to win in the coming election but that the one great principle for which it stands, is already winning all over the country. Mr. Wheeler is an excellent public speaker and is 48 years of age.

#### PRESIDENT REQUESTS EAGLESON'S RESIGNATION.

Washington, Jan. 4.—President Roosevelt has requested the resignation of Ernest G. Eagleston, surveyor general of Idaho. This announcement was made in the White House today by Senator Heyburn, who said that there was general dissatisfaction with Mr. Eagleston's administration of his office and complaint had been made by the interior department. It is indicated that there would be a general cleaning out of the employees of the office of the surveyor general at Boise, Ida. Mr. Eagleston's successor has not yet been selected.

## ANOTHER HOPE FOR THE MOUNT ROYAL SHATTERED

Portland, Me., Jan. 4.—Another hope for saving the Canadian Pacific steamer Mount Royal, with her 400 passengers and crew, might be towed into port was shattered on the arrival today of the Allan liner steamer Hungaria. As the latter ship was 20 days out from Glasgow and a week overdue shipping circles in London were led to believe that she had fallen in with the Mount Royal, which left Antwerp Dec. 7 for St. John, and expected to hear she was being towed into Portland. No trace of the Mount Royal was seen by the Hungaria. The Allan liner had a rough passage, due to heavy head winds, but sustained no damages.

#### HARVARD PRESIDENT LEGATEE.

Newport, R. I., Jan. 4.—It has been learned that Harvard University is the residuary legatee under the will of Frederick Sheldon, who left an estate valued at several hundred thousand dollars. The estate is made a trust under the will, the income to be paid to Mr. Sheldon's wife during her life and afterwards to Mrs. Sheldon's sister and her daughter. On their death the entire estate reverts to Harvard.

#### OLD CRUISER MARION BURNED.

San Francisco, Jan. 4.—The old cruiser Marion was burned to the water's edge today by a visitation of three miles south of Hunters Point, in San Francisco bay. The Marion was launched in 1875 to perpetuate the name of the slain hero of the battle of Marion, who was killed in the war of reconstruction. For a time she was in service on the China station.

#### CALEB POWERS JURY DISAGREE, WAS DISCHARGED

Georgetown, Ky., Jan. 4.—After being out more than 48 hours the jury in the case of Caleb Powers, tried on a charge of complicity in the murder of William Goebel, today reported to the second time that they were unable to agree upon a verdict and were discharged by Judge Morris.

#### FUTURITY OF 1910.

James B. Haggin Nominates 300 Colts For the Race.

New York, Jan. 4.—James B. Haggin, the famous horse breeder, has nominated 300 colts for the Futurity of 1910, the nominations for which have just been closed. This is the largest number of nominations ever made by one owner. A check for \$3,000 or \$10 for each nomination has been received by the club. The colts will be born and trained at the Elmendorf stud in Kentucky and the Rancho del Paso in California. Mr. Haggin's breeding farms.

#### EX-GOV. BOIES BETTER.

El Paso, Tex., Jan. 4.—Although ex-Gov. Horace A. Boies of Iowa passed a bad night he is somewhat better today, and the attending physician vividly relates that they need not come unless the patient should begin sinking. He is suffering with pneumonia and was removed from the train here while en route to California.

#### ENTOMBED MINERS.

Those in Alpha Shaft in Good Health And Spirits.

Ely, Nev., Jan. 4.—Work on the Alpha shaft is progressing slowly, keeping up an average of 10 feet per day, about 400 feet are yet to be cleared. The entombed men are in good health and spirits.

#### W. G. ROCKEFELLER'S DEER.

All Rounded Up and Shipped to a Pennsylvania Purchaser.

Greenwich, Conn., Jan. 4.—All the deer in William G. Rockefeller's private park, 32 in number, were rounded up yesterday and shipped to a Pennsylvania purchaser. Considerable difficulty was experienced in getting the deer together. Three of them injured themselves and were killed.

#### OWLS KILLED BY THEIR IMAGES.

Hawks dashing at a bird on the ground will forget to land on their prey in time to prevent a fatal collision with the earth, and the same result occurs when they try to over-haul a small bird in the vicinity of a wall. For hawks when they see a water tank near farm buildings round which these useful birds are wont to forage for rats and mice, seeing its own image reflected in the moonlit water, the owl imagines, apparently, this is an acquaintance, and going as it were, to shake hands, finds a hawk's talons frequently to be found hanging dead by nest building materials, and sometimes during toilet operations they get their heads and necks fatally locked between the stiff quills of their wing feathers. I wonder how many hundreds of young pheasants annually find death in the meshes of wire netting. Even though they are well able to fly over obstacles 10 times its height, little pheasants are so utterly devoid of "gumption" that they will try to jump through netting, taking not the slightest warning from the bodies of their elders and sisters who have hanged themselves thus.

#### MUSICAL HEARSE.

The Phonographische Hearse in a recent issue describes a hearse with funeral music attachment. The hearse is in all respects like those now in use, but has in addition an arrangement by which the driver may from his seat in the box "turn on" a funeral march. "The sound reflector," says the writer, "is so placed that it cannot be seen, and under ordinary weather conditions it sends strains of doleful music will float back to the bodies of the mourners in which the mourners are seated."

#### AGE OF CRAZES.

Sir Frederik Treves, in a recent address to the students of the Royal Dental hospital and the London School of Dental Surgery, remarked that he was in all respects like those now in use, but has in addition an arrangement by which the driver may from his seat in the box "turn on" a funeral march. "The sound reflector," says the writer, "is so placed that it cannot be seen, and under ordinary weather conditions it sends strains of doleful music will float back to the bodies of the mourners in which the mourners are seated."

#### BANK STATEMENT.

New York, Jan. 4.—Statement of the clearing house banks for the week (five days) shows that the reserve is \$200,000,000 less than the requirements of the 25 per cent reserve rule. This is an increase of \$200,000,000 over the previous week as compared with last week.

The statement follows:
